

SUNDERLAND SAFE ROADS PUBLIC

MEETING MINUTES

11/10/16

Committee members: Marie Litowinsky, Colleen York, Scott York

One resident, Lily Van Haverbeke

Marie, chairperson of the committee reviewed the purpose of the meeting: to review a new Vt law Act 158 and to review the committees proposal for a 2017 VTRANS Bike/pedestrian grant if available. Committee reviewed the proposal to focus on the area of concern for motorist, bikers and pedestrians which is the ascent of Sunderland Rd. from the town garage to property 2539. The proposal would be to widen and pave that section.

Marie reviewed Act 158.

Marie noted this public meeting was being held to review the committee's grant proposal if available in 2017 and to have an article for voting on this at town meeting. The grant would be an 80/20 match with town match being 20% and the article for town vote would be a capped amount.

Discussion ensued and town resident suggested that the committee find out where the town portion would come from by asking Select Board. She also suggested that we have visual presentation for town meeting, and perhaps additional information on Act 158 since she had never heard of the changes.

Committee noted incremental progress with "share the road" signs along Sunderland Hill Rd and fog lines which research has shown addresses speeding. Town resident asked if there could also be signs noting single file for cyclist.

There will be another public meeting scheduled before town meeting.
